

# Sneha Karma Foundation, Inc

**SNEHA KARMA FOUNDATION** is a USA registered 501(c)(3) nonprofit organization based in California, USA. We have been in operation in USA since July 2015. Our EIN # is 47-3774368. We are registered as a Trust in Mumbai, India since Oct 2017.

## Our Vision

Our **Vision** is to Build an ecosystem, which will enable the under-privileged girls to get equal opportunity to pursue their dreams. We are committed to supporting them until they become independent and self-empowered.

Our programs are designed to address the root causes such as poverty, gender inequality, poor education infrastructure, child trafficking, child marriages and other social challenges, that inhibit under-privileged girls, right to equal opportunity.

### 1. Support-A-Girl Program

Girls from poor rural regions are deprived of their right to education because of multiple reasons. Our Support-A-Girl program provides these under-privileged girls safe accommodation, access to quality education, good healthcare and takes care of all their other needs. We take pride in having a direct relationship with these girls and their parents to ensure that we are not only providing them financial support but also acting as their guardians providing them career and other guidance.

### 2. Skills Development Program

Not every girl who completes high school is interested in continuing their academic education. Also, in a country with high rate of unemployment, a college degree does not guarantee employment. To ensure that these girls have financial independence, it is important that we provide them skills that will enable them to earn their livelihood. Our Skills Development Program provides them an opportunity to pursue the skills training of their interest. These skills will help them find employment more easily and also provide them the confidence to start their own small business.

### 3. Social Enterprise Program

Woman artisans from rural regions produce quality artistic products. Unfortunately, they are forced to abandon their trade because they are unable to earn livelihood selling their produce. As part of our Social Enterprise program, we will buy these products from the artisans, thereby providing them livelihood. Our plan is to sell these products in the global market using e-commerce platform. Setup of the social enterprise will be funded by us, but the expectation is that this program will not only fund itself but also fund our other programs in a long run.

Our Mission is to enroll more and more under privileged girls in our programs, so as to provide them an equal opportunity to become independent and self-empowered. We need help and support of donors, volunteers and supporters like you who can help us make our vision come true.
